

# CONSERVE WATER

Follow these tips to save money on your water bill and a more sustainable lifestyle.

## 1 TAKE SHORTER SHOWERS

Take showers that are **5** minutes or less and install high-efficiency showerheads. An average family can save about **\$70/month** and 1000s of gallons of water/ year.

## 2

## FLUSH LESS

Remember, the toilet is not a waste basket. Throw trash wipes and other garbage in a bin.

## 3 GRAB A BOTTLE

Cut back on dishes by choosing a glass or bottle to reuse all day.

## 4 WASH MORE

Only the run the washer and dishwasher when they're full. If you need to clean the dishes before, turn off the tap and fill the sink with soapy water.

## 5 WAIT TO WATER

Water the lawn in the mornings or evenings to cut back on water lost to evaporation. Water only when needed. See footprint tracks? That's a sign the lawn could use a drink.

### Need Help With Your Utility Bill?

As we all continue to make changes in the way we live, work and interact due to the COVID-19 pandemic, we hope you and your family are safe. We know you have other priorities right now, and we know you may be experiencing unexpected hardships with your financial situation or with taking care of life's responsibilities.

That's why we're waiving late fees for March, April and May. You have an additional 30 days to pay from the due date of the bill and no late fees will be assessed. We've also removed the convenience fee for paying bills online at this time.

Customer service is available **Monday – Friday, 8 a.m. – 5 p.m. by calling 305-756-7171** to assist with your account.
